

STEP 1

[This is really just setting the two 2x3 plates down on your build table in preparation for STEP2]

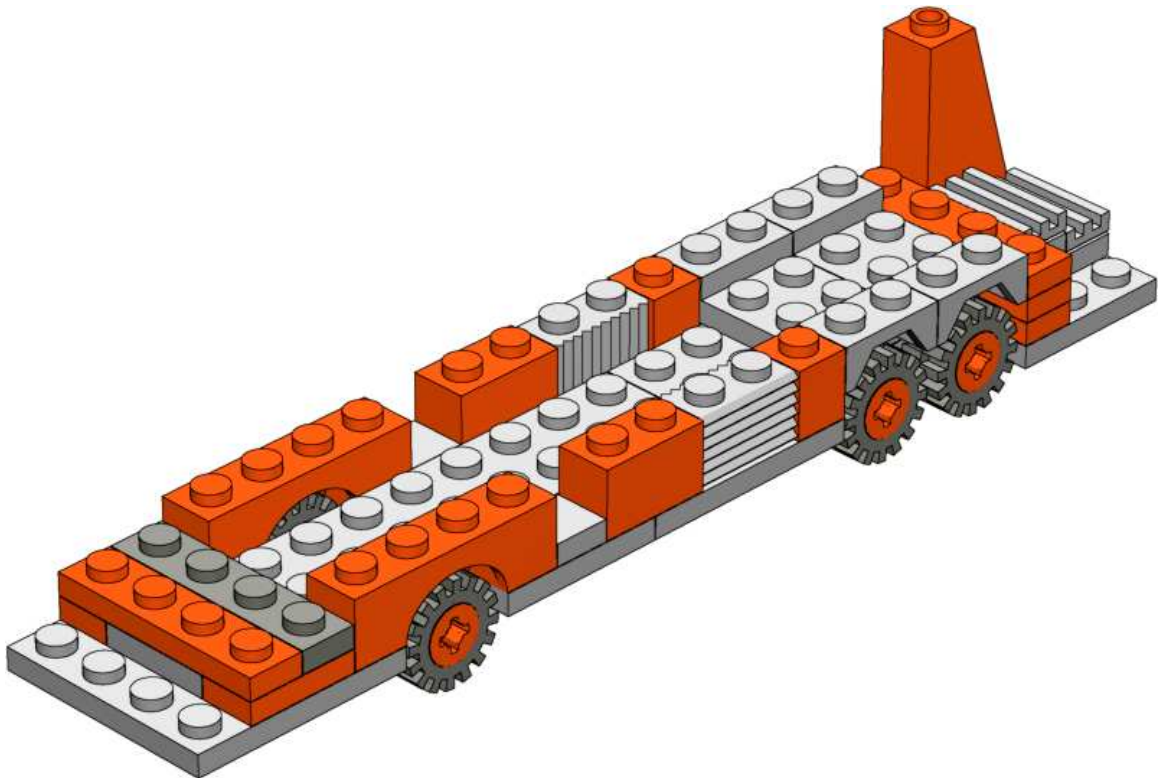

STEP 2

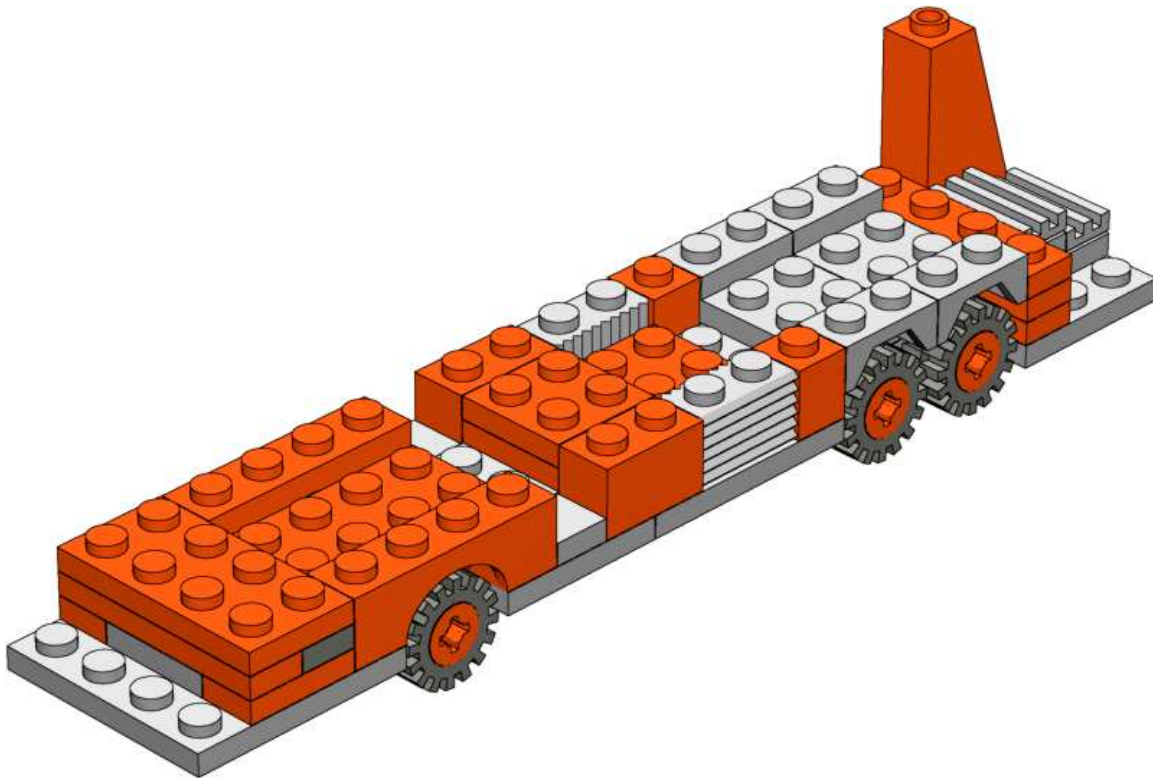

[More setting out plates, again in preparation of the next step.]

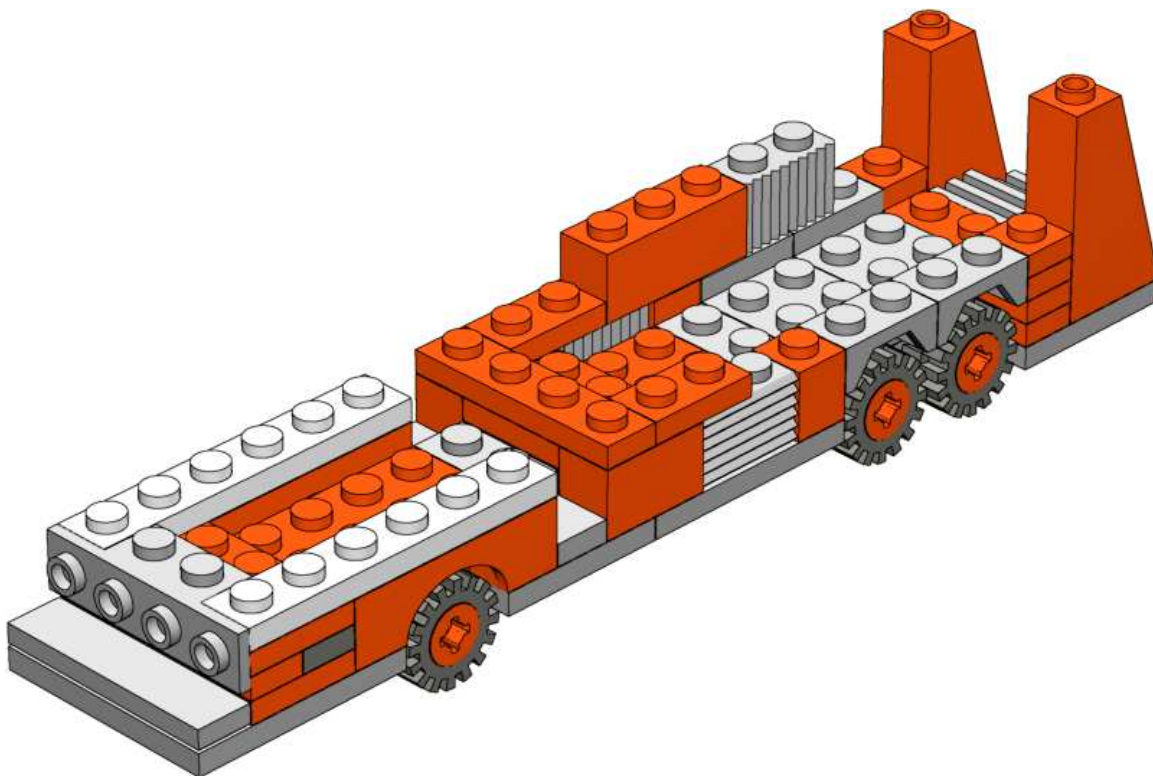

STEP 3

STEP 4

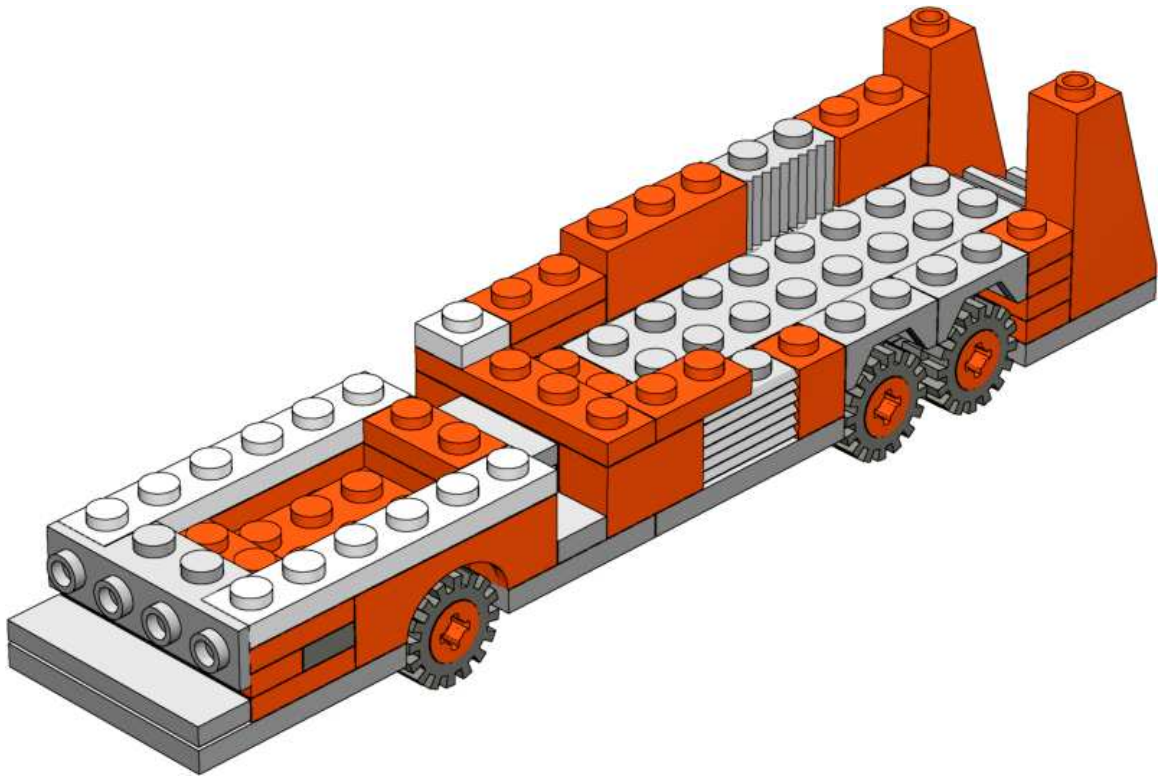

STEP 5

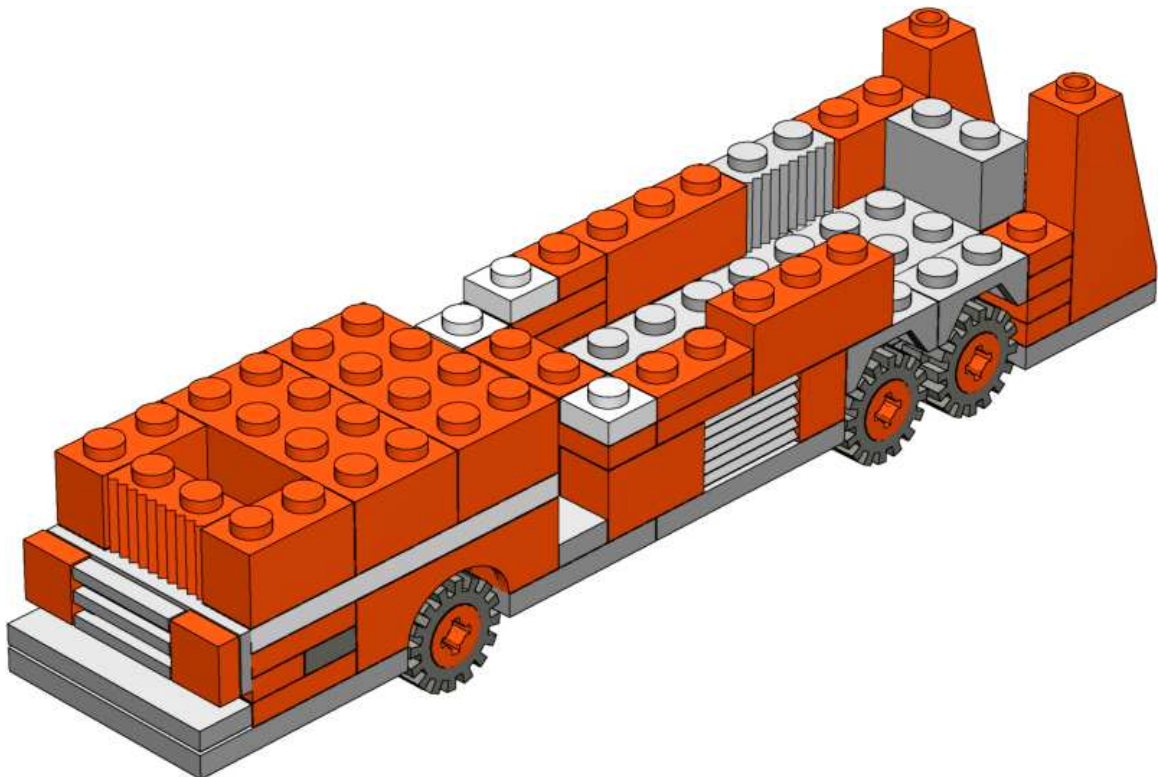

STEP 6

[If it becomes hard to tell white plates from light grey ones, use the more realistic pic at the beginning as a reference.]

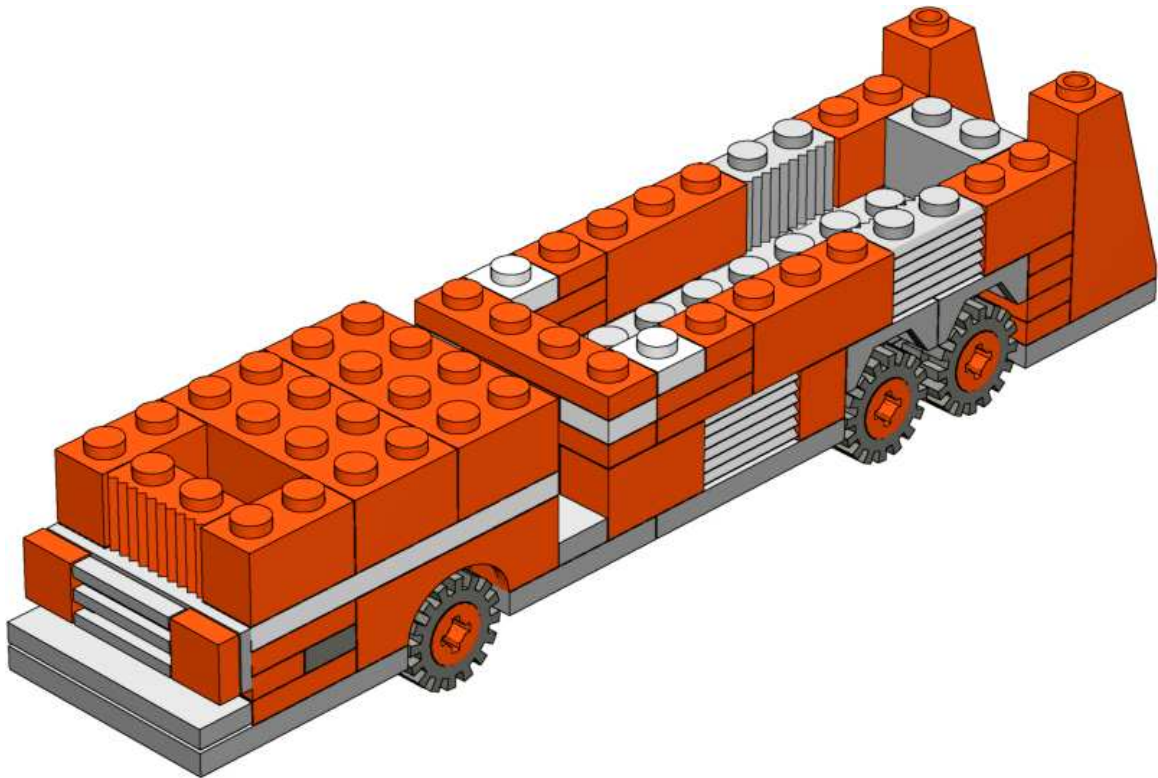

STEP 7

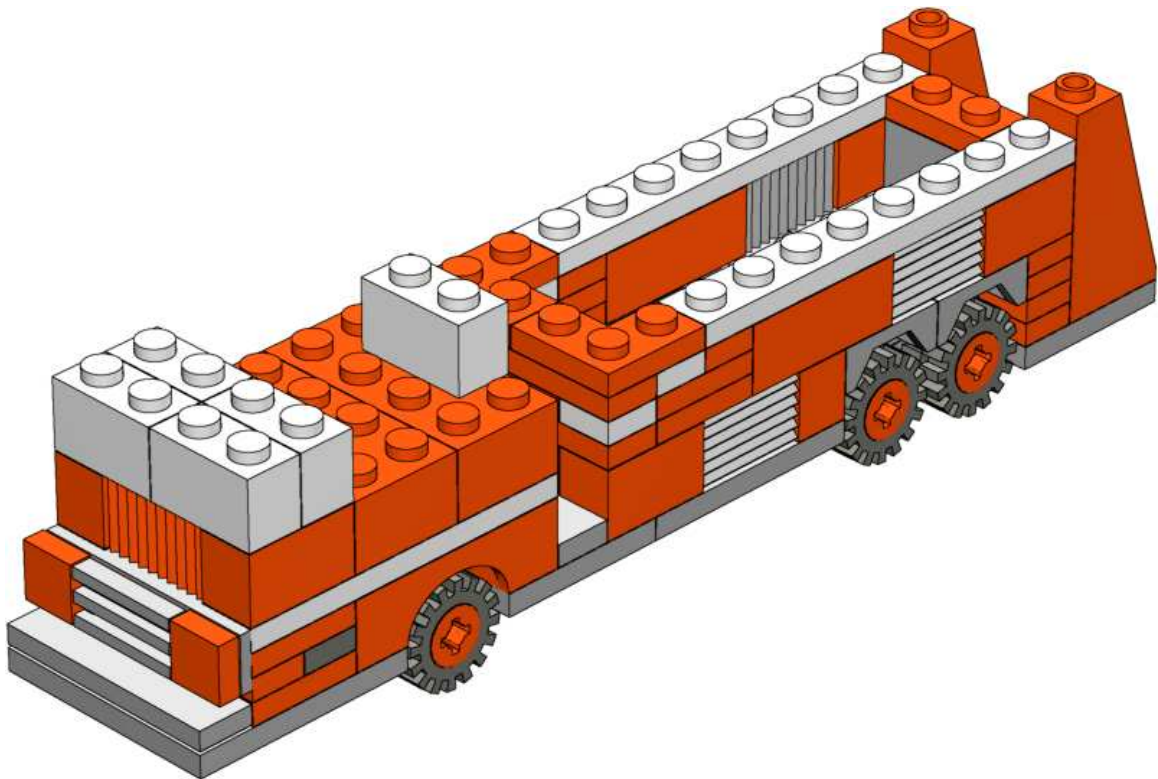

STEP 8

[The 1x1 tiles at the front are transparent red.]

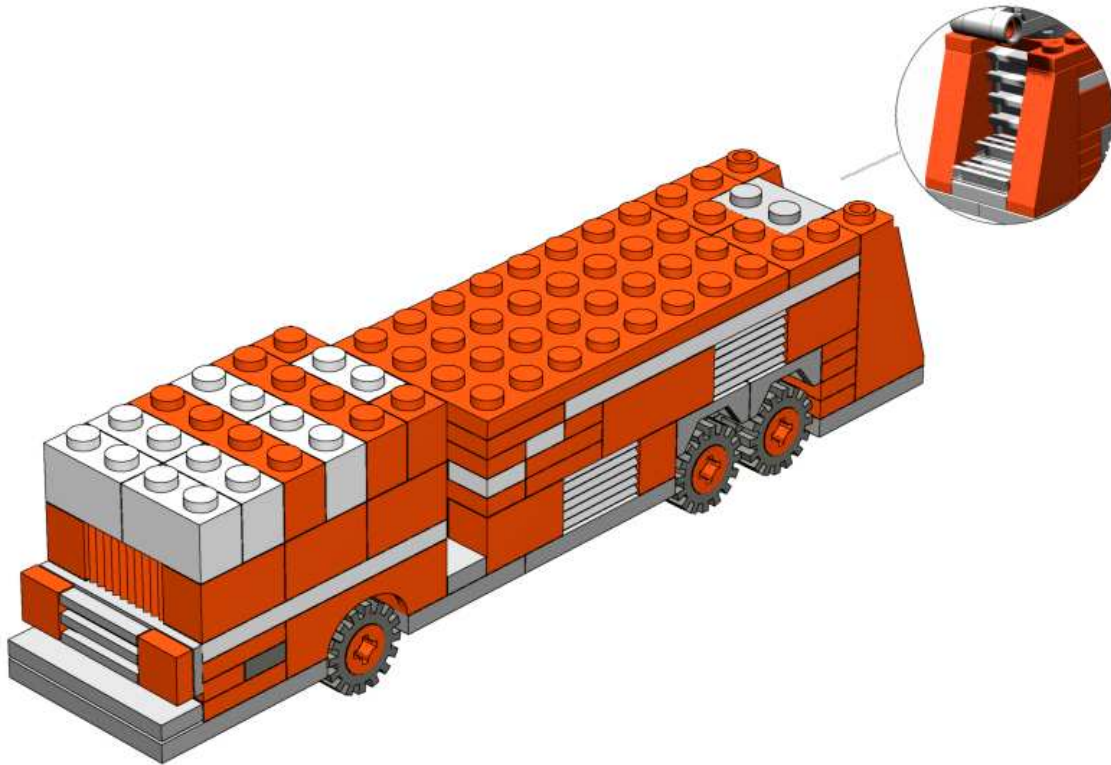

STEP 9

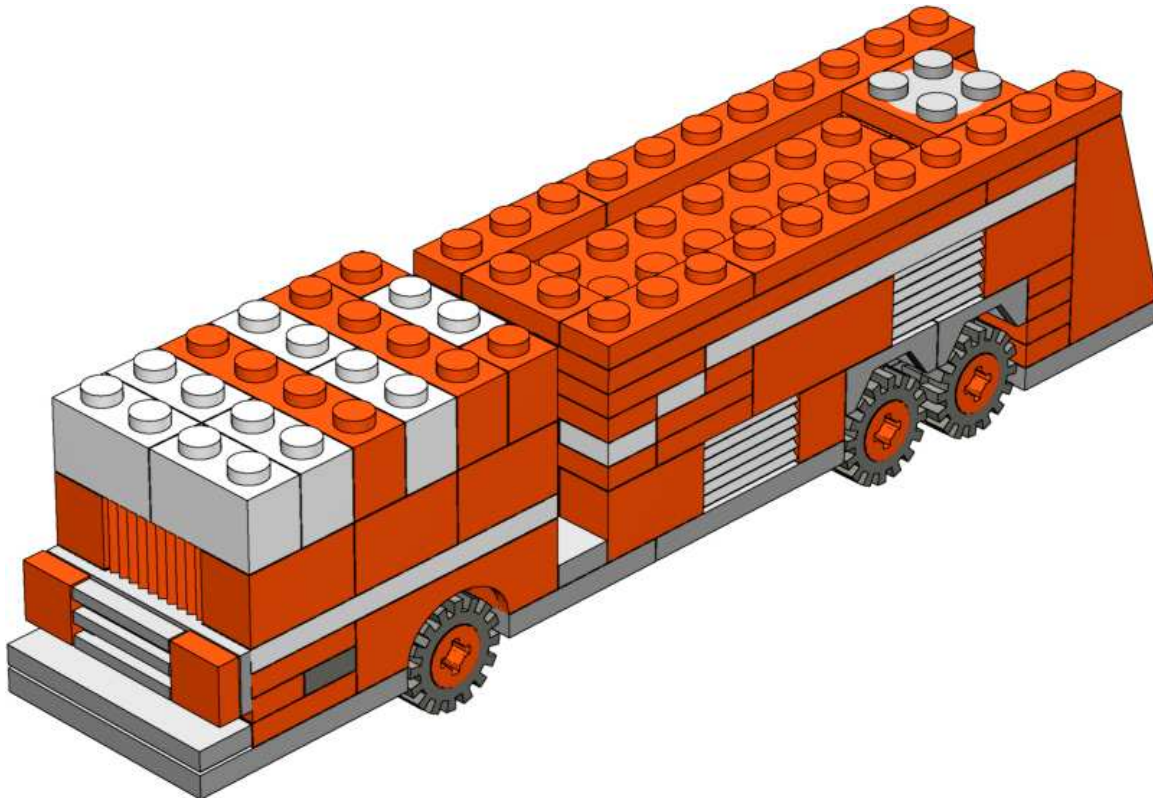

STEP 10

[The 1x1 bricks on the cab section are transparent.]

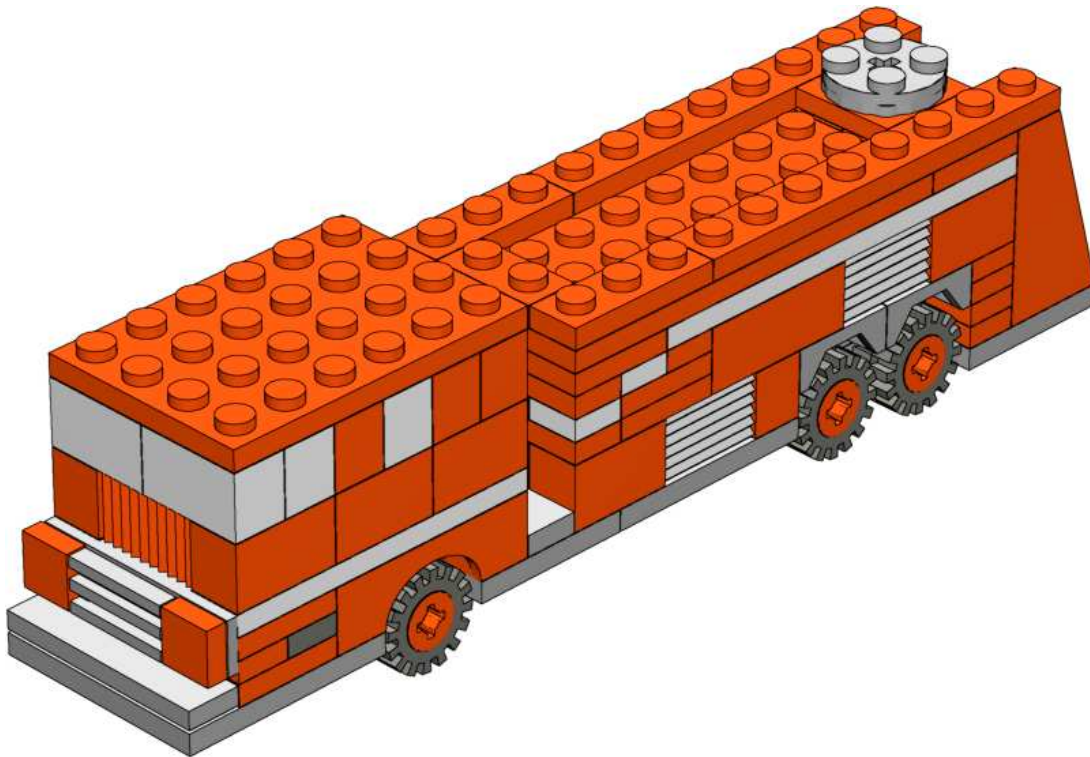

STEP 11

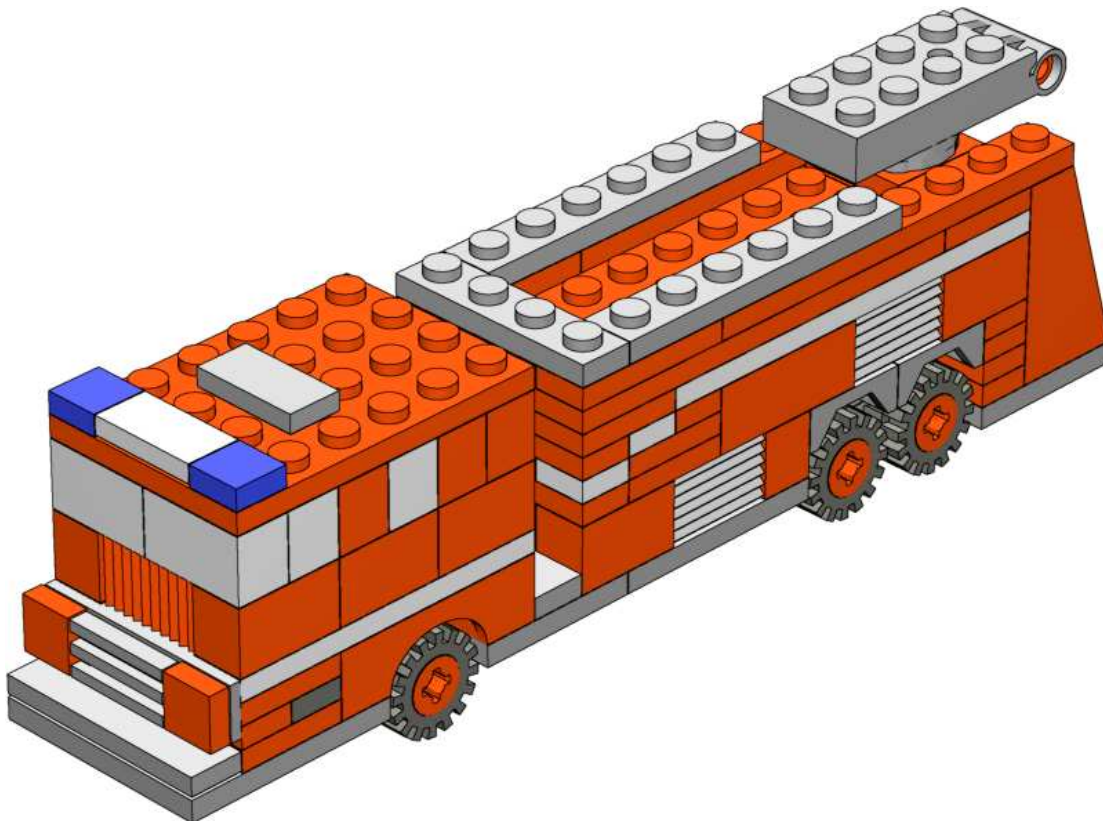

[The insert at the top right shows you how the ladder plate is used.]

STEP 12

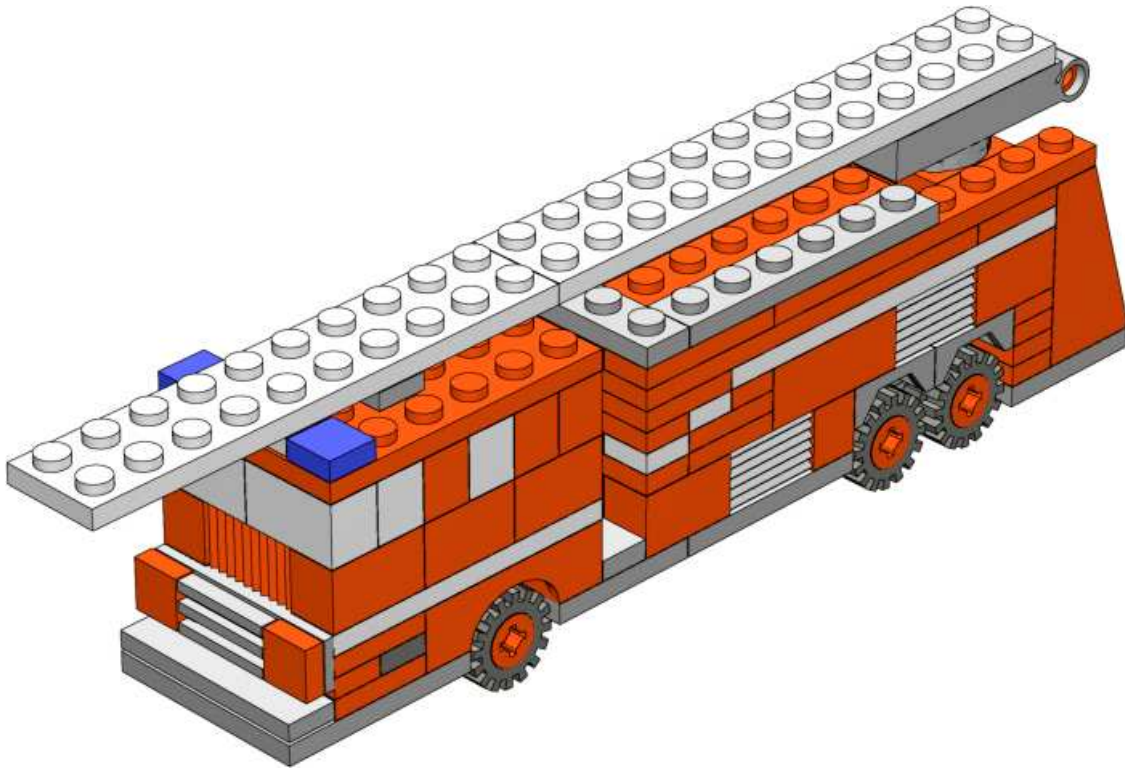

STEP 13

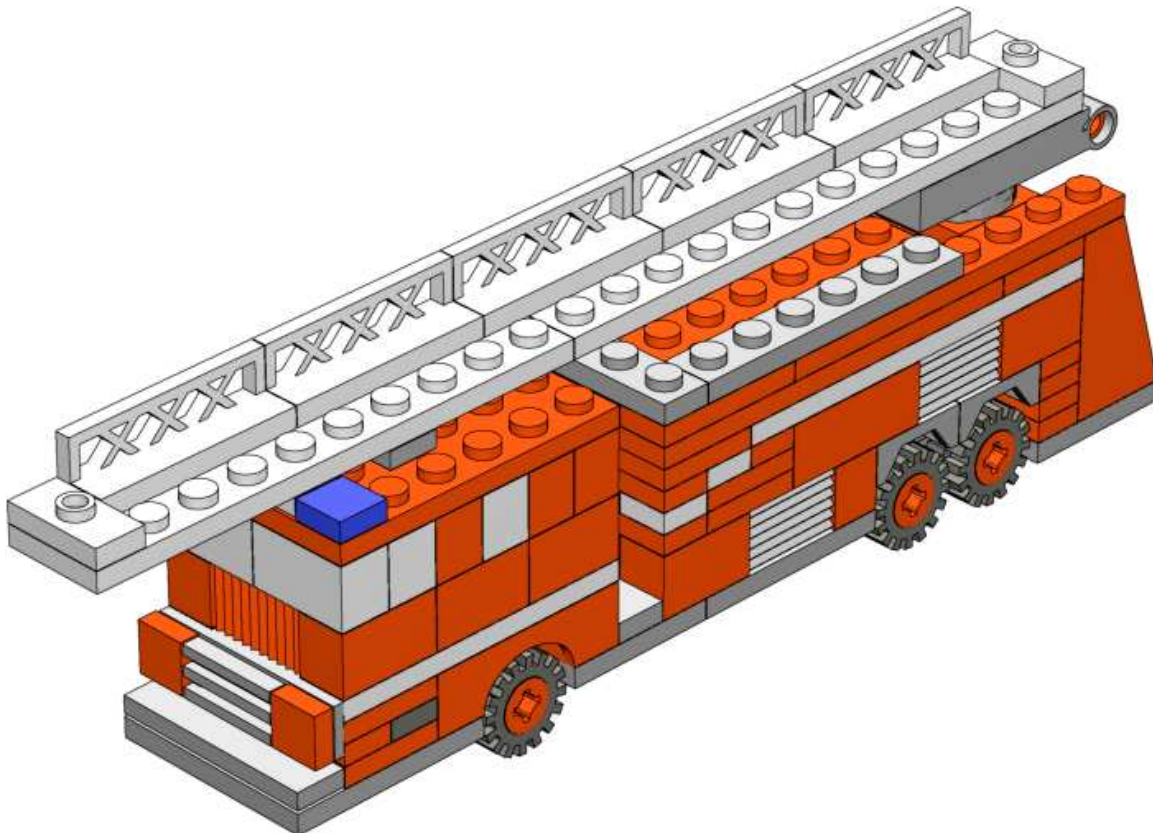

STEP 14

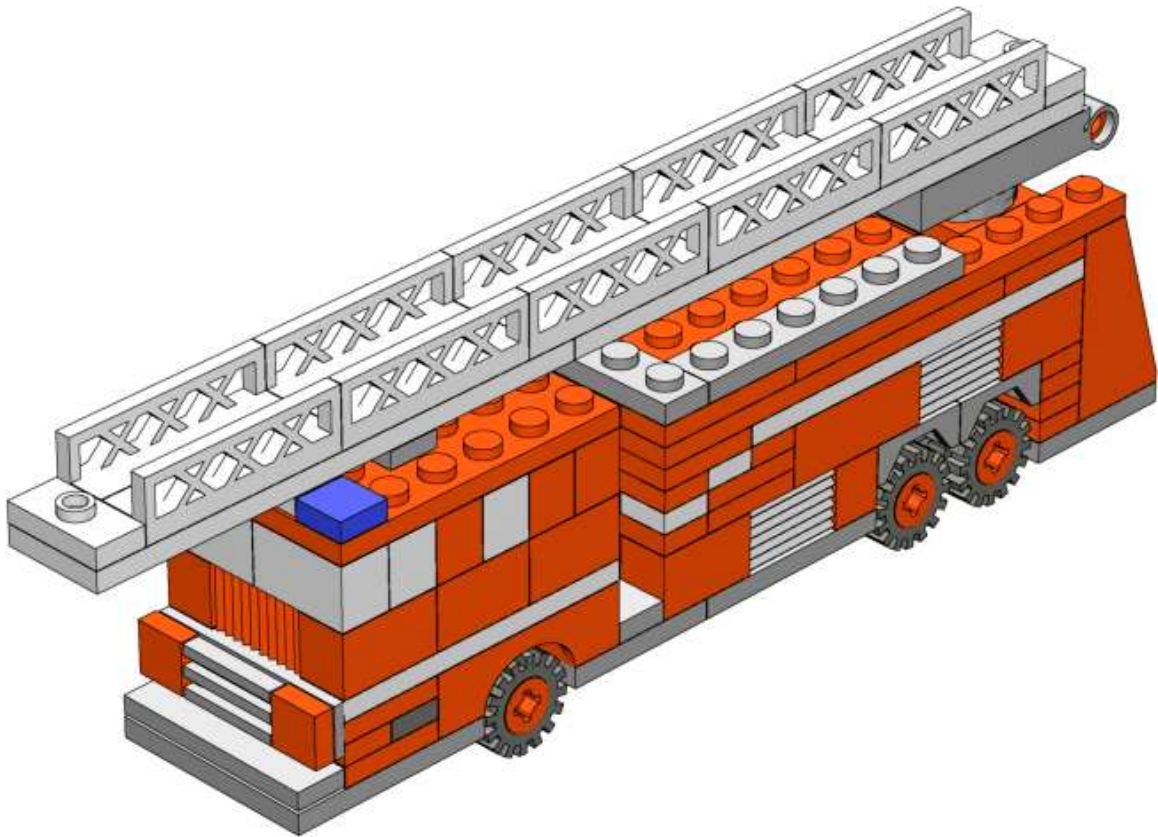

[The 1x1 tiles on top are transparent blue.]

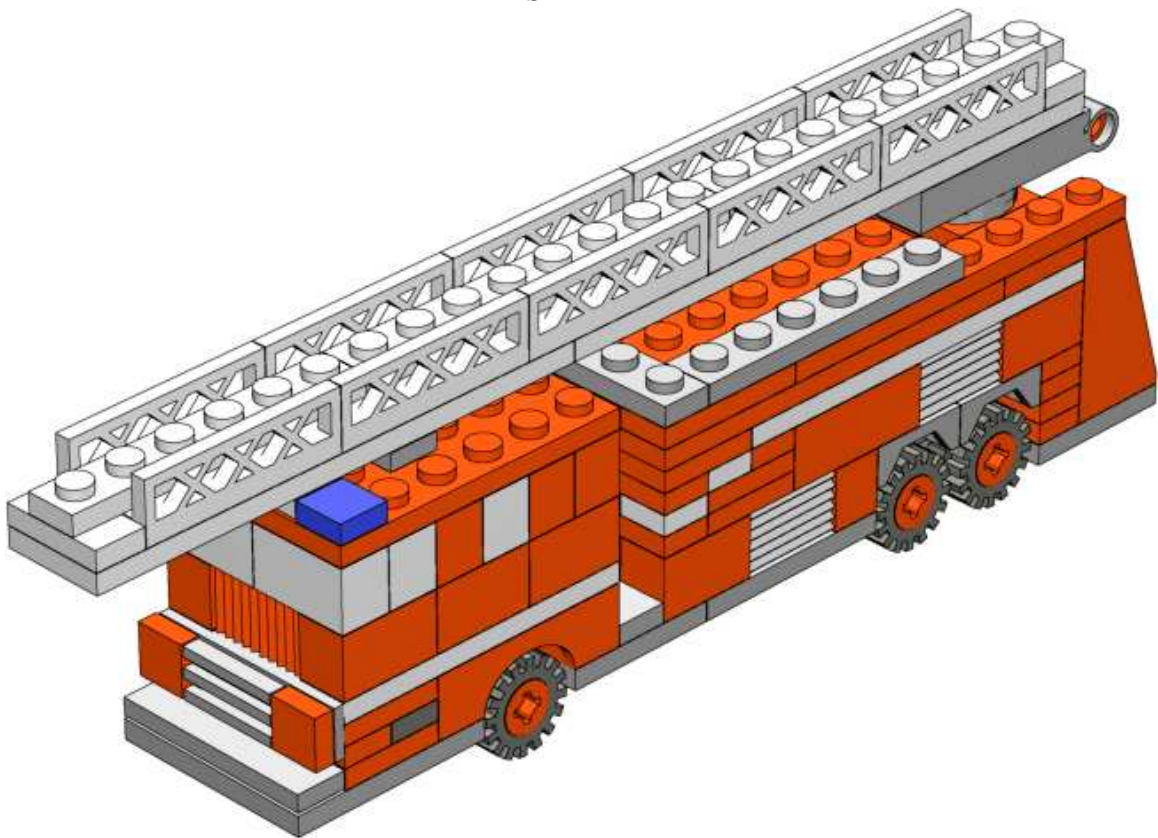

STEP 15

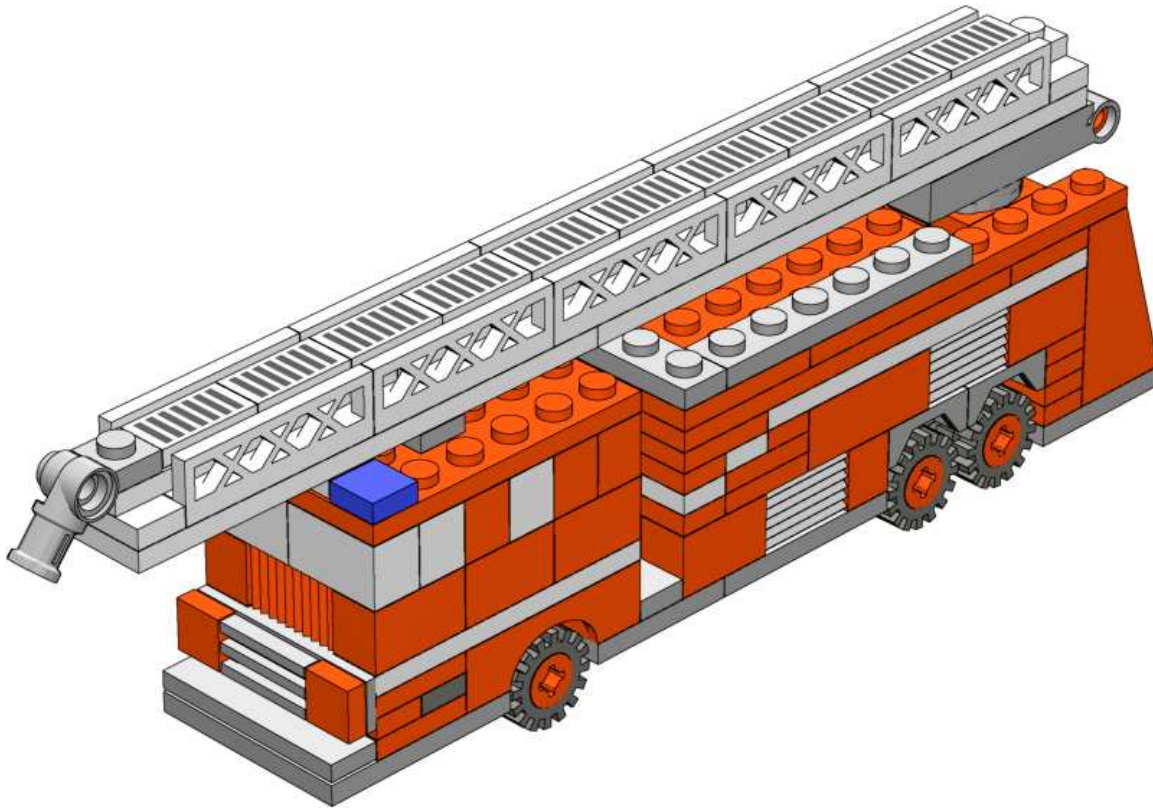

STEP 16

STEP 17

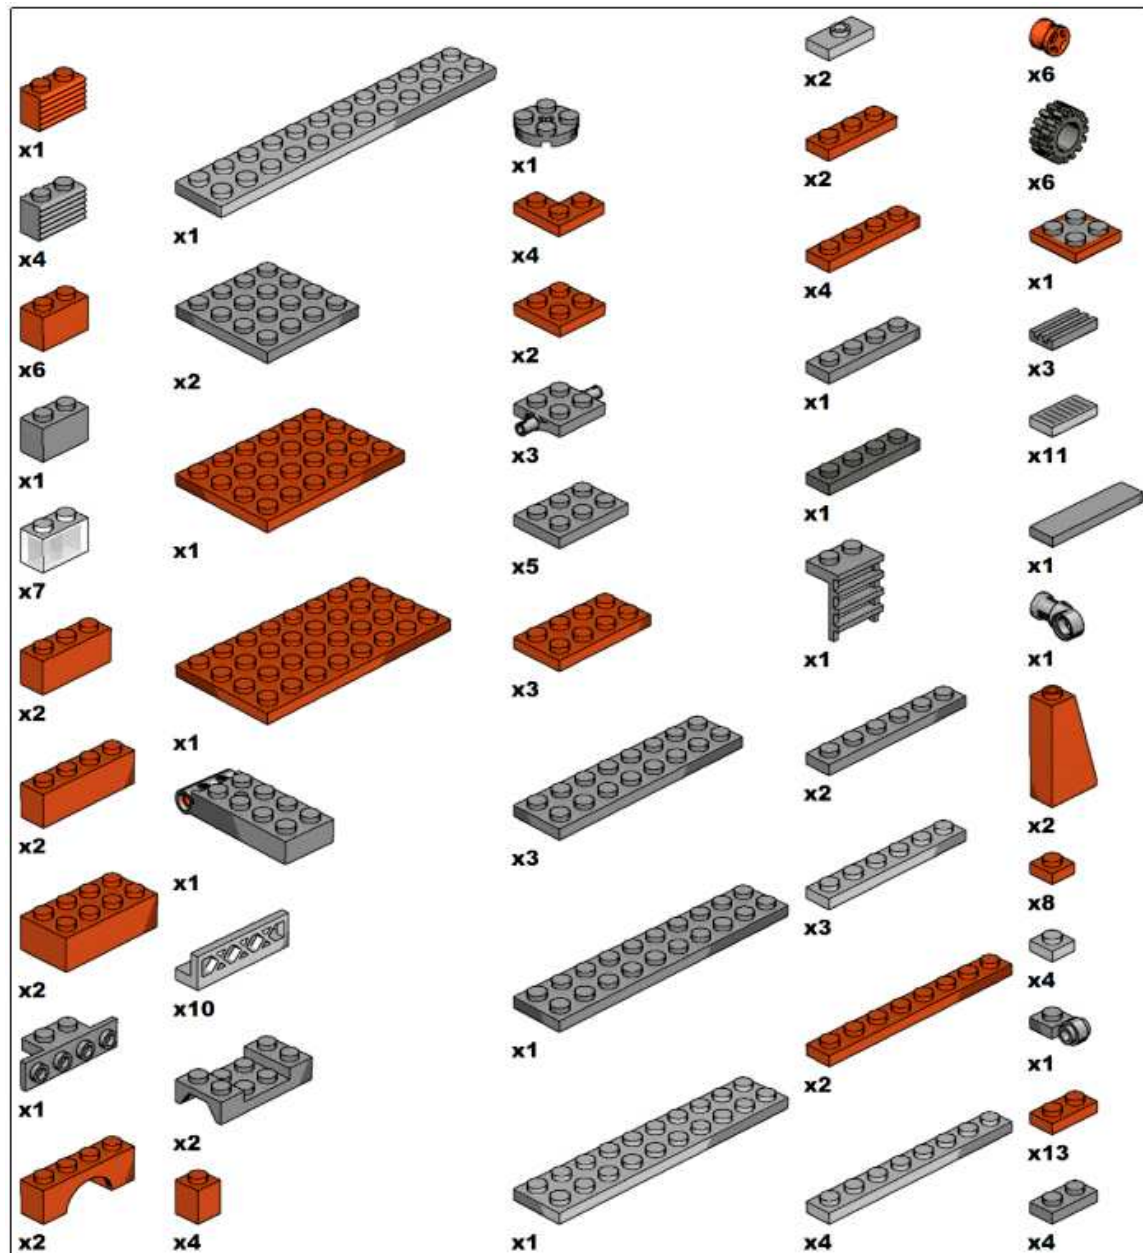

STEP 18

STEP 19

[As noted at the beginning, you are probably better off replacing the 1x1 printed tiles shown here with plain 1x4 white tiles. Then print your own ladder using the technique described on page 1 of these instructions. The end result is almost identical.]
